## **DANIEL BASCH, CPA, EARNS CERTIFIED VALUATION ANALYST CREDENTIAL**

*The Certified Valuation Analyst (CVA) designation is the only valuation credential accredited by the National Commission for Certifying Agencies (NCCA), the accreditation body of the Institute for Credentialing Excellence (ICE).*

Daniel Basch, CPA with the firm of Roberts Accounting, CPAs, P.C., has successfully completed the certification process with the National Association of Certified Valuators and Analysts® (NACVA®) to earn the Certified Valuation Analyst® (CVA®) designation. The CVA designation is granted only to individuals who have met a high bar or both prerequisite qualifications and passed a substantive examination testing both understanding of theory and the application of skills in the field of private company business valuation.

“The CVA designation is an indication to the business, professional, and legal communities that the designee has met NACVA’s rigorous standards of professionalism, expertise, objectivity, and integrity in the field of performing business valuations, and the attendant financial consulting related to the discipline,” stated Parnell Black, MBA, CPA, CVA, Chief Executive Officer of NACVA.

“NACVA’s CVA designation is the *only* valuation credential accredited by the National Commission for Certifying Agencies® (NCCA®), the accrediting body of the Institute for Credentialing Excellence™ (ICE™),” Black added.

To become accredited by NACVA, candidates typically have completed intensive training. An initial requirement to becoming a CVA is that the applicant either be: 1) a licensed Certified Public Accountant (CPA) holding an active, valid, and unrevoked CPA license in his or her state; 2) or hold a business degree and/or a master of business administration (MBA), or higher degree from an accredited college or university, and have two years or more of full-time (or the equivalent of) experience in business valuation and/or related disciplines. Those who have earned the CVA credential must recertify every three years in order to maintain their credential.

For more information about Roberts Accounting, CPAs, P.C.'s business valuation, accounting, financial consulting, and related consulting services, contact us at (585) 454-8780 or via e-mail at [info@rac-co.com](mailto:info@rac-co.com).

**About the NACVA:**

The National Association of Certified Valuators and Analysts (NACVA) is a global, professional association of over 7,000 members that delivers training and certification in consulting fields such as business valuation, financial litigation forensics, expert witnessing, forensic accounting, mergers and acquisitions, business and intellectual property damages, healthcare consulting, and exit strategies. NACVA is a member of the Institute for Credentialing Excellence (ICE). NACVA's Certified Valuation Analyst (CVA) designation is the only valuation credential accredited by the National Commission for Certifying Agencies (NCCA), the accrediting body of the Institute for Credentialing Excellence. Other professional certifications offered by NACVA include the Master Analyst in Financial Forensics® (MAFF®) and the Accredited in Business Appraisal Review™ (ABAR™) designation. Visit [www.NACVA.com](http://www.NACVA.com) to learn more.
